

BACKGROUND:

As a Leading Specialized Company in the field of Contract Research for Bone and Joint Diseases, WE at ALLEVIA turn good ideas into products and speed up the R&D process for our clients. But it is not only our clients that benefit from our ideas and innovation; WE make a real improvement to the quality of people's lives. Welcome to a career with ALLEVIA!

JOB ROLE:

ALLEVIA is looking for a highly experienced and motivated Preclinical Clinical Research Professional, with a proven track record in study management to fill the role of Study Director. This role will provide the opportunity for you to use your expertise as a Study Manager of global preclinical trials, ensuring that all stages of research projects are completed efficiently and in accordance with customer expectations. The successful candidate must enjoy working in a team environment and working closely with client organizations.

LOCATION:

Bern, Switzerland

REQUIREMENTS:

- Degree, in a scientific or healthcare discipline complemented by solid international study management experience as a Preclinical or Clinical Study Manager
- Well developed communications skills are essential.
- Publication record in Musculoskeletal Research

BENEFITS OF THE ROLE:

This is an outstanding opportunity to work for a company that places staff satisfaction as a priority. The company's excellent benefits include, but are not limited to, (subject to regional variations): flexible working hours, annual bonus, healthcare, pension and numerous leisure and social activities. Salaries are competitive and offered individually. For applications or further information please apply with current CV and covering letter stating why you wish to apply for this role.
